ACKNOWLEDGEMENTS

I would like to thank the members of the Program Committee for their dedicated service to the WFA. Their expert reviews are the foundation of the paper selection process and enable us to assemble a high-quality program. I am also grateful to all the authors for submitting their outstanding papers, to the session chairs for securing excellent discussants, and to the discussants for providing constructive and insightful feedback.

I am particularly indebted to my Co-Chairs (Jules van Binsbergen, Carole Comerton-Forde, Todd Gormley, Amit Goyal, Zhiguo He, Jun Pan, and Amiyatosh Purnanandam) for their invaluable assistance in selecting papers, forming sessions, and appointing session chairs. I thank the Associate Chairs for conducting first-round pre-screens and providing multiple second-round reviews. I am grateful to Bryan Routledge for his tireless management of the logistics and IT system, the WFA Past President, Manju Puri; the rest of the Executive Committee (Stefan Nagel, Itay Goldstein, and Andrea Eisfeldt) for their counsel and support; and Leigh Ann Clark and Robyn Scholl for managing the conference logistics. WFA CODE OF CONDUCT

The WFA seeks to provide a safe, inclusive and productive meeting environment that fosters the exchange of scientific ideas, provides equal opportunities and treatment for all participants, and is free from discrimination and harassment.

While free and open discussion and debate are essential elements of scholarly interaction, paper presenters, discussants, session chairs, and other conference participants are expected to abide by norms of professional conduct and to follow venue rules. All participants are also expected to abide by standards of scientific integrity in their work product, and to present results that are accurate to the best of their knowledge. Any sources of funding or financial interests or other ties that might be viewed as creating conflicts of interest should be disclosed on the paper's title page and on the presenter and discussant slides with a brief one or two sentence disclaimer.

The WFA does not tolerate discrimination, harassment, or retaliation in any of its activities. Discrimination is the prejudicial treatment of individuals on the basis of race, ethnicity, gender, sexual orientation, age, disability status, or any other attribute. Harassment includes speech or any behavior, such as but not limited to, remarks, both spoken and in other media, bullying, physical contact, stalking, sexual advances or requests for sexual favors, and unwelcome advances. Please remember that behavior that is acceptable to one person may not be acceptable to another, and that harassment, even if intended or conveyed in a joking manner, is unacceptable.

Anyone who experiences or witnesses a violation of standards of professional ethics and scientific integrity, or who experiences or witnesses discrimination or harassment, should report this behavior to the WFA Program Chair, Alex Edmans, WFA President, Stefan Nagel, or the WFA Treasurer-Secretary, Bryan Routledge.

Individuals violating this policy, or making allegations in bad faith, may be subject to disciplinary action. Reported cases and allegations will be adjudicated promptly by the WFA Board of Directors. The Board can choose

to act or to delegate authority to a designated committee or to the WFA Executive Committee. The Board reserves the right to take actions including, but not limited to, removing an individual from a meeting without warning, prohibiting an individual from attending future WFA meetings, terminating an individual's affiliation with the WFA, and notifying an individual's employer. Retaliation against any person who files a complaint in good faith, or assists in the investigation of such a complaint, is also a violation of this policy and may be subject to disciplinary action.

Please direct comments or concerns regarding this policy to the WFA Treasurer-Secretary Bryan Routledge (routledge@cmu.edu).
